MAY - 4 2016

IN REPLY REFER TO:
3160 (UTG011)

Instruction Memorandum: UTG-2016-002

Expires: May 19, 2018

To: All Green River District Employees
From: Scott Haight
Acting Green River District Manager

Subject: Green River District Reclamation Guidelines / Green River Data Management System

The purpose of this Instruction Memorandum (IM) is to update the expired IMUTG000-2014-004 dated May 21, 2014 and to provide updates to reclamation guidelines and attention to the Green River Data Management System (GRDMS). These guidelines apply to all surface disturbing activities which occur on Bureau of Land Management (BLM) managed surface lands within the Green River District (GRD). GRDMS is the preferred method for reporting monitoring data on a yearly basis. The guidelines should be used to help inform the public about the requirement to complete reclamation projects in a timely manner and stay up to date with monitoring requirements.

Reference the attached Green River District Guidelines for specific reclamation requirements.

Attachment: GRD Reclamation Guidelines
